MULTICOLOR

Multicolor Paving is perfect for those who crave a classic impression. The combination of different colors in each piece is a uniqueness that only exists in **Multicolor** paving.

This type of color comes in various forms which, if combined with other colors or shapes, you can get a different impression too. That way you can easily have an environment that is rich in impressions.

COMBINATION

This paving is particularly produced by combining several colors such as red ●, yellow ●, & black ○. With various formulas, 3 types of Multicolor are produced :

SHAPES

Multicolor is available in several forms of our products:
